PROFILE

Detail-oriented Front-End Web Developer with a strong foundation in web technologies and frameworks. I have worked extensively on creating user-friendly applications and websites, developing E-commerce and portfolio websites for diverse businesses. I have collaborated closely with clients to translate their needs into functional digital solutions. By leveraging modern design tools and coding best practices, I have improved website performance and user experience, increasing efficiency by 80-90%. Adept at ensuring optimal user experiences, I am always focused on delivering clean, scalable code and optimizing front-end performance for fast, responsive sites.

WORK EXPERIENCE

Freelance Web Developer
2024 - 2025

- Developed and maintained responsive websites for various small businesses and startups, enhancing their online presence and engagement.
- Utilized HTML5, CSS3, and JavaScript to create user-friendly interfaces, leading to improved customer satisfaction.
- Collaborated with clients to gather requirements, providing tailored web solutions that met specific business goals.

ProjectsE-commerce
Websites for Local Stores

- Objective: Build fully functional and responsive E-commerce platforms for local businesses seeking to enhance their digital sales channels.
- Role: Lead Developer
- Skills Utilized: React, Bootstrap, HTML5/CSS3, APIs
- Impact: Successfully developed three E-commerce sites that increased client sales by an average of 30% within the first three months of launch.

Portfolio Websites

- Objective: Create professional portfolio websites for individual clients to showcase their work and enhance personal branding.
- Role: Front End Developer
- Skills Utilized: Node.js, Tailwind CSS, Figma
- Impact: Enhanced user engagement through modern design and interactivity, resulting in a 50% increase in user visits.
